INVESTMENT SOLUTIONS: E-QUAL & SMART ALPHA

Using this approach, we generate alpha through pure bottom-up stock picking and extensive research. We employ multi-pronged investment strategies and leverage proprietary models like E-Qual Model to deliver consistent long-term returns.

E-Qual Framework

First of its kind model in the country which calibrates the "Governance" aspect of a company. Each company is evaluated on the basis of the following parameters and a score is assigned to them.

Three Pronged Investment Process

- Management Integrity
- Management Capability
- Wealth Distribution
- Investor Communication
- Liquidity

Using this approach, we try to mitigate typical fund manager vulnerabilities, primary among those being the "Selection bias" and the "Allocation bias".

"Selection" bias and "Allocation" bias, if mitigated, can lead to superior risk adjusted returns consistently

The biases are mitigated by way of :
